UTA-8 Lane Closure at Corner of Intersection, Flagger Control

1. For low traffic volume and intersecting two-lane streets, one flagger positioned in the center of intersection may suffice.
2. For high traffic volume or when a four lane street is involved, additional signs (i.e. PREPARE TO STOP), additional flaggers or law enforcement personnel may be used.
3. The situation depicted can be simplified by closing one or more of the approaches. If this cannot be done, consider diverting traffic to other roads or streets.
4. Flashing warning lights may be used to call attention to the advance warning signs.
